

Elizabeth Gordon

T+L TOP TRAVEL ADVISOR | SAFARI SPECIALIST

Born in Kenya and raised between Paris and Nairobi, Gordon creates itineraries with cultural, conservationist, or wildlife-centered focuses. With clients increasingly interested in responsible, low-impact travel, Gordon can help arrange experiences such as visiting an elephant orphanage and learning about legendary conservationist Daphne Sheldrick, or taking a multi-day hike with members of the Masai community – learning about the landscape and visiting remote homesteads (rather than villages set up for tourists). For those in search of an even more exclusive experience, her company is able to arrange helicopter tours and private small-plane charters to provide epic views and access to some of the continent’s most remote locales. On her radar right now: Namibia, where luxe new lodges are giving her clients the chance to explore areas like the red Sossusvlei desert and the forbidding Skeleton Coast.

HIGHLIGHTED REVIEW

"Elizabeth and her team supported a large group departure of 36 people to Tanzania and Kenya. She was a true partner throughout the process, and was able to leverage her incredible expertise and destination knowledge to ensure the trip was planned well and seamlessly supported on the ground. Her passion and enthusiasm came through in all aspects of the planning and execution of this trip. I would work with her again in a heartbeat!" - **Jessica Weeman**
